

# SCEMA Annual Report

2020-2021

## OUR MISSION

To serve the emergency management community by providing information, professional development, and networking through state and local agencies, private industries, and volunteer organizations to advance the emergency management profession.

## OUR VISION

To advance the emergency management profession in South Carolina by providing a structured, goal-oriented, organization that serves a diverse emergency management community.

## ACCOMPLISHMENTS and the PATH FORWARD

SCEMA like everyone else in 2020 faced new challenges; however, with assistance from so many members SCEMA was able to continue. SCEMA made its way into the virtual world with quarterly meetings and this year's conference will be held virtually as well. Although this year's legislative breakfast was postponed several members of SCEMA assisted SCEDM meeting with several Legislatures encouraging to have EMPG funding maintained and if possible an increase. Despite the setbacks and new challenges SCEMA continues to move forward due to the commitment of its membership.
